Oh it was on the document:

“The City of Durango asks that residents continue to conserve water until they are able to begin pulling water from the Animas again. While local officials and EPA would like to thank the community for the out pouring of support, it is best to volunteer with local volunteer group such as (see list).”

If you don't have one, that's fine, just wanted to ask

Hi Rebecca,

I'm having the call center email me the names of the people who called in to volunteer in a clean up effort. I haven't seen a list of volunteer groups. Maybe you know something I don't?

Lori

Hi Rebecca,

Attached is approved verbiage that I sent to the call center.

Also, to view what I've sent to the call center in the inbox:
